Follow the link to learn about the digestive system and teeth:

<https://www.bbc.co.uk/bitesize/articles/zvk4f82>

What are the three main type of teeth that humans have?

What is their function?

Humans have three main types of teeth:

1. Incisors Incisors help you bite off and chew pieces of food.

2. Canines These teeth are used for tearing and ripping food.

3. Molars These help you crush and grind food.

Did you get the answer correct?

Draw a diagram of the digestive system and label. Using the key words below:

oesophagus

anus

liver

small intestine

large intestine

mouth

pancreas

stomach
