

Monday 11th May 2020

Happy Monday Year 2!
We hope you had a good weekend!

Writing

Listen to *The Day The Crayons Quit* by Drew Daywalt

<https://www.youtube.com/watch?v=489micE6eHU>

Today you are going to start planning your own letter from an item in your house. It doesn't have to be a crayon!

Your challenge is to:

Choose an object in your house.

Think about how your object might be feeling.

Think about what your object might want to happen.

Plan the structure of your letter.

Writing

Here is Nadia's plan to help you! Remember, plans just help you get your ideas down. They don't need to be perfect!

<p>Letter opener</p>	<p>Dear Nadia</p> <p>We need to talk.</p>
<p>What's wrong?</p>	<p>Makes too many cups of tea. Forgets to drink them. Doesn't finish them and they become cold.</p> 
<p>What do they want to change?</p>	<p>Stop wasting electricity. Drink water instead?</p> 
<p>Letter closer</p>	<p>Your exhausted appliance, Kettle</p> 

Writing Tomorrow, you are going to use your plan to write a letter from your object. Here's Nadia's letter to give you an idea!

Dear Nadia,

It's me, your hard working kettle! Listen - we need to have a conversation.

Since you've been at home, all you do is make cups of hot tea that you forget to drink! Do you understand how frustrating that is? I mean, tea should be DRUNK. Tea should not be left on the side to grow stone cold and then poured away. It's so wasteful!

You need to have a long think about how much of my energy you're using. Maybe start drinking water from the tap instead?

Your disappointed appliance,
Kettle.

Maths

Remember last week, we **divided** by **grouping** objects fairly? If that was tricky for you, use today to have another go.

Start by finding objects in your home. You could use lego, pencils or pasta!

Count out the objects, then group your objects into equal groups, that means each group should have the same number of objects!

In your maths books, write out your division sentence. Use the example to help you. **20 has 4 groups of 5, 20 divided by 5 is 4.**

If you feel confident with dividing, scroll to the next slide.

$$20 \div 5 = 4$$

Maths

Today we're going to use our knowledge of dividing to answer word problems. Remember to read the question carefully and if you can, underline the important words.

There are 35 children.

They get into teams of 5

How many teams are there altogether?

teams

There are 10 candles in a packet.

Abi needs 50 candles.

How many **packets** does Abi need altogether?

packets

Maths

Here is a set of 12 pencils.

How many is half the set?

pencils

20 children sit at tables in groups of 4.

How many groups will there be?

Anna has 50 pencils.

She puts 5 pencils in each party bag.

How many bags does she put pencils in?

bags

Put a ring around the number which **cannot** be divided exactly by 10.

60

110

80

120

90

101

Maths - Challenge Questions

Harry saves 20p coins.

He has saved £3.20

How many **coins** has he saved?

Show how you work it out in the box.

coins

Miss West needs 28 paper cups.

She has to buy them in packs of 6

How many **packs** does she have to buy?

packs

Geography

Do you remember where Sunny lives? That's right - in the **Sahara Desert** which is located on the African continent.

We're going to learn a little more about this continent.

Click on the link to learn more about Africa.
