

Monday 13th July 2020

Welcome to the last week of year 3! You've all worked really hard and we are very proud of you.

On Tuesday last week you attended a transition day to meet your new teacher and saw your new classroom!

Draw a picture of yourself in your new uniform. Around your picture answer these questions.

1. On transition day how did you feel? Write down words to describe how you felt and explain why.
2. What are you most excited about for year 4 and why?
3. What was the best part of the transition day?

Maths Games - Shape!

Shape patterns - play level 1, 2 or 3! - <https://www.topmarks.co.uk/ordering-and-sequencing/shape-patterns>

Make shapes on the geoboard - e.g. **How many different triangles can you make? How many have right angles?** <https://apps.mathlearningcenter.org/geoboard/>

Guess the 2D or 3D shapes by looking at their properties (sides, corners, angles, edges, vertices etc.) <https://www.ictgames.com/mobilePage/shiftingShapes/index.html>

Sort the 3D shapes into the Venn diagram

https://mathsframe.co.uk/en/resources/resource/115/sorting_3d_shapes_on_a_venn_diagram#

CHALLENGE! Make predictions about which of these nets will fold and become a cube. <https://www.nctm.org/Classroom-Resources/Illuminations/Interactives/Cube-Nets/>

Reading

Log onto Get Epic and choose a book to read or have one read to you and follow along!

Beth's class code - qad0628

Natalie's class code - uzw1406

If you have an Ideas Store card, you can get access to eBooks and
Audiobooks

<https://www.ideastore.co.uk/ebooks-and-audiobooks>

Well done 3B!

Well done 3N!

Art

Today I would like you to go on a colour walk. You can do this in your local area or around your house.

A colour walk is a walk where you try to look for all the colours of the rainbow. You might think of it like a treasure hunt, where the treasure is colour!

WHAT YOU NEED

- A grown-up to go with you
- Your imagination
- Some concentration
- Somewhere to go for a walk. This could be outside, along your street, or even around your home. If you go outside, make sure it's safe and you have permission. Your grown up should be mindful of any social distancing restrictions
- Optional: A phone, a camera, some paper and some coloured pens, pencils or crayons

WHAT TO DO

Look for things in every colour of the rainbow, one by one. You can photograph or draw each thing you find, write them down, or just look.

It's up to you how many things you want to find in the same colour. At different times of year this activity might look quite different!

If you're playing at home, you could collect a few things of each colour and arrange them.

LET'S GO!

Let's start with red

We found natural and man-made things that were red. What can you find?

Are all the orange things the same orange?

What can you find:

Some things might be small

What are the things you find made from?

How do different colours make you feel?

Which colour is your favourite?

We often look at things without really thinking about what colour they are

Don't forget to look up high

... and down on the ground

Go through all the colours in the rainbow until you reach pink and purple

Now you can start again!

AFTER YOUR WALK

When you finish your walk you could:

- draw a map of your walk and add colourful drawings of some of things you saw
- make a collage of pictures you took
- make colourful drawings of some of the things you saw together
- Look back at your photographs and see if you notice anything new about the things you saw.
