They're exactly the same color. If you place your finger over the spot where the squares meet, you can see they're the same.

# Extension

The government has created the Oak National Academy to provide extra 'lessons' for children while you are at home. Each day there are maths, English and foundation lessons. The lessons are sequential, so it is important that you do them in order.

We want you to first complete the work that we have set you. If you decide you would like an extension, then click on the link below to access their lessons.
