## Art:

Last week, you went for a walk and looked at human and physical features of your local environment.

**Human features** - the impact of people on our environment e.g. things made by humans

**Physical features** - the natural processes e.g. the weather

Today take the same walk with your adult around your local area. Create a simple map. What are the names of the roads? What do you see and are they **human** or **physical** features?
